

## Jeremy's Diary 11th - 15th May 2020

This week I finally went back to my FAVOURITE park. There's a ziplining course made in it. Geraldine and I went to see what it was like. We got to climb up high in the trees, and I realised that I don't like heights. Bláithín had to rescue me from the climbing frame. But I still had lots of fun with Geraldine. We visited the magical wishing chair and made a wish each. But I can't tell you what I wished for or else it won't come true! Well that's what Geraldine the Giraffe said.

We went for a long walk in the park, we visited and fed the ducks and swans that live in the lake. We looked out at the special castle that's on an island in the middle of the lake, it's really cool! Bláithín told us a very nice story about a lady called Una Bhán who used to live in the castle. I think I would like to live there when I grow up. We kept walking around the park and saw some exercise equipment beside some paths. We tried them out, but Geraldine and myself are a little too small to use them just yet. Maybe when I'm 7 years old I'll be able to reach them.
