

Jeremy's Diary 27th April - 1st May 2020

Look how much the potatoes have grown! I have been watering them every few days and the rain this week has helped too! I tried to count how many potatoes we have now, but I got lost amongst all of the leaves! I am SO EXCITED to see how the potatoes turn out. Geraldine the Giraffe and I played a game of hide a seek the other day, can you spot where Geraldine the Giraffe was hiding? I think she picked a really good spot.

Well I had told you before that I had been painting quite a bit lately. Both Geraldine the Giraffe and I had a go at it. We used lots of different colours. I painted a rainbow tree (Bláithín helped me with the grass) and Geraldine the Giraffe made lovely flowers by cutting and gluing recycled toilet rolls and kitchen. She wanted to use a glue gun and was a little nervous, because she had never used one before. But I helped her, it was really cool to see the glue come out all stringy. I might make something using glue another time. I'll ask Bláithín to look up some ideas on Google for me.

Well you probably know it is Active Home Week. We have been doing SO much exercise everyday. I have gone for lots of walks and runs around the area where I live. I have been doing yoga every morning before I start on my crossword puzzles. I find some of the yoga a little tricky, but Geraldine the Giraffe is new to yoga too so I figure we can practice together. I do feel a lot better when I exercise, and I'm sleeping like a baby too! Hmmm if I keep this up, maybe one day I'll be fit enough to run the Dublin Marathon?...

So we had a birthday in my house last week, and I forgot to show you all the cards she got. I really like all the pretty colours and drawings on the cards. Bláithín made a birthday cake (I ate most of it when she wasn't looking...oops). We had a little party in the house and played games in the garden all day. It was so much fun. That night we baked cookies and boy o'boy were they yummy!! Hmmm I wonder when it's going to be my birthday?..
