

Learning Tables

Some parents got in touch expressing confusion about the maths tables work. Others asked for additional materials to support their child with tables. I have made this document in the hopes that it helps you to support your child learning at home.

This document is a compilation of tables worksheets for addition and subtraction of numbers 1-10. The solutions are included at the end of the document.

Different ways to use these worksheets:

- Print and have your child complete it as a traditional worksheet
- Read the questions aloud and ask your child to answer them orally. A quizshow type game might make this fun!

Finally, please do not feel pressured to use the time boxes on the worksheets - for some children this causes stress and anxiety while for others it is a fun challenge. Find whatever works for your child.

Best wishes,
Sarah
