

Hi everyone!

Since the weather has been pretty bad this week Geraldine the Giraffe and I have had to stay inside. I feel like it's been raining for 100 years already! Anyways, I have been keeping busy, doing lots and lots of colouring and painting. I am still helping Geraldine to read. Bláithín says I am a good teacher.

We have been doing lots of jigsaws too. This one had 500 pieces, and we didn't get any help from Bláithín this time! We did it all on our own! I was a little tired after it. So I took a nap. I might ask Bláithín to buy me another one so I can keep practicing before we go back to school next year. I can't believe we have the summer holidays in three weeks! I am so excited to have lots of time to play in the park and eat ice-cream and climb trees!

The carrots are growing really fast now since we had all this rain. They will be ready to eat in July. Well that's what it said on Google, I have never grown vegetables before, so Bláithín is helping me. The potatoes are nearly ready to be dug up. I think they should be ready next week. I am so excited! We will be eating lots of potatoes for a long time when they are ready to be harvested.
